The Paycheck-Day Sheet

The one-page payday routine that keeps your payoff plan moving.

Your tracker holds the plan. This sheet runs the payday.

The spreadsheet shows you the whole journey — every balance, every payoff date. The **Paycheck-Day Sheet** is the printable that runs the morning the money lands: what's due before the next check, which debt gets the extra this time, and what's truly safe to spend after.

Print it, stick it on the fridge or in your planner, and give payday five focused minutes. Small, steady moves are exactly how that debt-free date on your Progress tab keeps getting closer.
